Best of luck to you all. You're going to do amazing things for our students and our campus.

The National Academy of Sciences, Engineering, and Medicine - administers postdoctoral and senior research awards at [participating federal laboratories and affiliated institutions](#) at locations throughout the U.S and abroad. All research opportunities are open to U.S. citizens; some are open to U.S. permanent residents and foreign nationals.

NASEM is actively seeking highly qualified candidates including recent doctoral recipients and senior researchers. Applicants should hold, or anticipate receiving, an earned doctorate in science or engineering. Awards are contingent upon completion of the doctoral degree. A limited number of opportunities in select fields are also available for graduate students. Degrees from universities abroad should be equivalent in training and research experience to a degree from a U.S. institution.

Application deadlines: August 1st and November 1st.

Applicants should contact prospective Research Adviser(s) at the lab(s) prior to the application deadline to discuss their research interests and funding opportunities.

For detailed program information, visit www.nas.edu/rap or e-mail rap@nas.edu.
